

**RUG MEMOIRE D'UNE TRAME BRIQUE
LIGNE ROSET**

PLEASE CONTACT YOUR LOCAL SHOWROOM FOR AVAILABILITY

Designer Constance Frapolli Description The 'mémoire d'une trame' rug calls on the traditional technique of hand-knotting to achieve a meticulously detailed visual effect of a macro photographic representation of a multicoloured weave. The delicacy of the motif and the subtlety of the shade associations leave this rug wide open to individual interpretation: are they an accumulation of little houses, or stylised directional arrows perhaps? The superposition of inlaid patterns produces an optical effect similar to an oscillating band passing across a screen or the moiré effect of a shifting optokinetic pattern. Hand-knotted rug in 90 % wool / 10 % cotton (48,000 knots/m²). For orders in the customer's choice of dimensions, please allow for a tolerance of +/- 3 % in terms of length and width. Also available as Memoire d'une trame bleu.
