Design Marie Christine Dorner

The T vase is a beautiful piece of craftsmanship made from glass which is first blown, then scuffed. One of the branches of the 'T' takes the vase, with the others supporting stems or branches. Vases may be interlocked to create a compact group, made yet more interesting by the fact that T is available in 3 soft, harmonious and easily associable colourways. These vases required two years of development since their original shape is achieved thanks to a complex procedure: the glass is blown onto a platform whilst the mold is rotated. This technique requires great dexterity and must be done very rapidly. Once a piece has cooled, it is scuffed by hand to obtain a cloudy effect. Each piece is unique and all vases are signed by the designer. Vase in matt finish molded mouth-blown glass (with a brushed effect).
