

**DS-531 ARMCHAIR  
DE SEDE**

IN-STORE PURCHASE ONLY

**Design de Sede Design-Team** Simply beautiful. Or beautifully simple. Whoever settles into seating furniture from the DS-531 range is not only in for a comfortable and relaxing experience, thanks to the lowered sitting position, but will also feel right at home in the stitched leather design. The sweeping frame construction and a wooden supporting base for the seat cushions are the simple structural elements of these sculptures. They are available both as three-seater and as a cosy armchair with head section and stool.
