Look no further if you are looking to introduce a touch of luxury to your home. The "House of Hackney's" luxury cushions will add instant colour and texture to any living or bedroom space. House of Hackney cushions come in a large array of prints and hues. Embodying the spirit of Gaia, the goddess of ancient mythology who presided over the earth, this motif of swirling vines, flowers and birds in flight echoes the beauty of the natural world. In a muted palette against fresh 'Ecrú', this British-made cushion is crafted from light and airy cotton-linen with piped edging for a contemporary feel.
